

HOLLY HUNT ART

BIOGRAPHY AND STATEMENT

Celine Cannon, In Her Own Words

"My works in stone are a response to my environment, my relationships with people, places and things. Contained within a geometric form, clean lines, acute angles and varying planes signify dimensions of thought and lend structure to concepts, while space, volume proportion and texture all represent depth of emotion."

As a contracted artist, Celine has produced work for many landmark buildings in New York including Columbia University, the New York Public Library and in 2003-04, the Restoration of the Verizon Building at Ground Zero which was destroyed on 9/11. Most recently, she was invited to HAITI by Donna Karan to work with the Stone Artisans as part of a philanthropic project organized by Ms Karan and the Bill Clinton Foundation.

Celine is represented by the MATIN Gallery in Los Angeles. Her work has been featured in both domestic and international publications and can be found in the homes of such notables as Goldie Hawn, Meg Ryan and Sting.
