

HOLLY HUNT LEATHER

SKU AND NAME

6015 / CHIBERIA

DESCRIPTION

Introducing a new leather created to withstand exposure to the natural elements! Chiberia Iced is an ideal solution for covered terraces, lanai or any outdoor space. Produced using the finest European hides Chiberia has a matte finish with a consistent embossing pattern derived from the luxury handbag market. Chiberia withstands water, light and spills both indoors and out. Chiberia is unmistakably leather, with the look, hand and feeling of the finest qualities in the HOLLY HUNT collection.

CONTENT

Full cow hide

AVERAGE HIDE SIZE

45 SQ FT (4.2 SQ M)

AVERAGE LARGEST CUT SIZE

66" Vertical 55" Horizontal
(168 cm Vertical 140 cm Horizontal)

THICKNESS

1.4 - 1.6 mm

FINISH

Embossed grain

PERFORMANCE CHARACTERISTICS

- Stain repellency treatment added during production
- Resists spills and easily wipeable surface. Most liquid spills can be easily cleaned with water.
- Colorfast pigments resist fading over 700 hours

COLORS AVAILABLE

- 01 Pure White
- 02 Camel
- 07 Polar

FREIGHT CODE

L

TESTING INFORMATION

- CAL 117: Pass
- NFPA 260: Class I
- Colorfastness to Light, AATCC 16.3 700 Hours: Class 5.0
- Colorfastness to Wet & Dry Crocking, AATCC 8: Class 5.0
- Colorfastness to Chlorinated Pool Water, AATCC 162: Class 5.0
- Colorfastness to Sea Water, AATCC 106: Class 5.0
- Water Repellency Spray Test, AATCC 22: Rating 100
- Water Resistance Hydrostatic Pressure, AATCC 127: Rating 100

- Mold Growth Resistance, ASTM D4576: Rated well for mold growth resistance after 17 days under harsh humid and heated storage conditions.
- Shrinkage Temperature of Leather, ASTM D6076: Average 104°C/219°F
- Passes BS 5852 Source 0 & 1 with FR Rated Foam
- FR treat to pass BS 5852 Crib 5

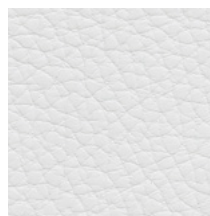

STAIN TESTING

- Tequila: Wipes clean with water
- Blueberries (simulates bird droppings): Wipes clean with water
- Sunscreen: Wipes clean with water
- Tanning Oil: Wipes clean with water
- Red Wine: Blot then wipe clean immediately for best results
- Blue pen: Avoid pen contacting leather. Specific ink removing cleaners can be recommended to help remove tough pen markings.

CLEANING & CARE

For optimal performance, leather should be covered or stored indoors during inclement weather.

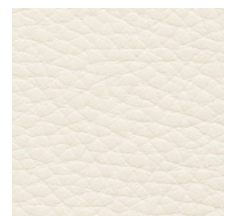

- As with all outdoor furniture, proper specification of foam is critical to avoid mold growth with sustained exposure to water.
- After upholstery is exposed to water, remove excess with a dry cloth.
- Remove regular dust with a slightly damp cloth. Air dry.
- Clean spots with a slightly damp cloth and rub gently in circular motions only, so that the leather tipping does not get damaged. When spot cleaning, always test a small, inconspicuous part of the furniture in case of discoloration.
- Do NOT use bleach to clean this leather.
- Specific leather treatment products can be recommended for tougher stains.
