CLEANING & CARE

- For optimal textile performance, maintain fabrics by gently vacuuming dirt before it becomes embedded, wipe or blot spills as soon as they occur, and spot clean soon after stains occur. When spot cleaning, always test a small, inconspicuous part of the furniture in case of furniture discoloration or shrinkage. Avoid excessive brushing that may abrade the fibers.

(cleaning and care continued...)

- Gentle, professional dry cleaning with any solvent except trichloroethylene is recommended.
- Ironing and/or steaming are approved on the back side of the fabric, only on a low heat setting.
