## CLEANING & CARE

- Gentle, professional dry cleaning with any solvent except trichloroethylene is recommended.
- For optimal textile performance, maintain fabrics by gently vacuuming dirt before it becomes embedded, wipe or blot spills as soon as they occur, and spot clean soon after stains occur. When spot cleaning, always test a small, inconspicuous part of the furniture in case of discoloration or shrinkage. Avoid excessive brushing that may abrade the fibers.

*(cleaning and care, continued...)*

- Do not use washing powders that contain oxidizing or brightening agents.
- In case of liquid or water spills on the fabric, remove all spills immediately but do not rub. Gently blot liquid spills with a clean, dry cloth.
