CLEANING & CARE

- Professional dry cleaning is recommended.
- For optimal textile performance, maintain fabrics by gently vacuuming dirt before it becomes embedded. Avoid excessive brushing that may abrade the fibers.
- In case of reduced luster, ironing may be performed at the medium setting (150°C, 300°F). Always test a small, inconspicuous part of the furniture before proceeding.
- DO NOT USE ANY WATER OR SOLVENT-BASED CLEANERS. Use of water based or detergent based solvent cleaners may cause excessive shrinkage and staining.

BACKING RECOMMENDATION

- Backing is recommended for upholstery.
