

MEASURING FOR DELIVERY

HOLLY HUNT aims to provide a best-in-class delivery experience to its valued clients. This guide provides important measurement and obstruction information our clients should consider before purchasing new furniture.

DIMENSIONS TO CHECK

1 Exterior/Front doorway height

2 Exterior/Front doorway width & clearance to opposite wall

3 Staircase width

4 Staircase corner width* & clearance to opposite wall upstairs
[*if your stairs curve]

5 Low-hanging light fixtures

6 Interior doorway width & clearance to opposite wall

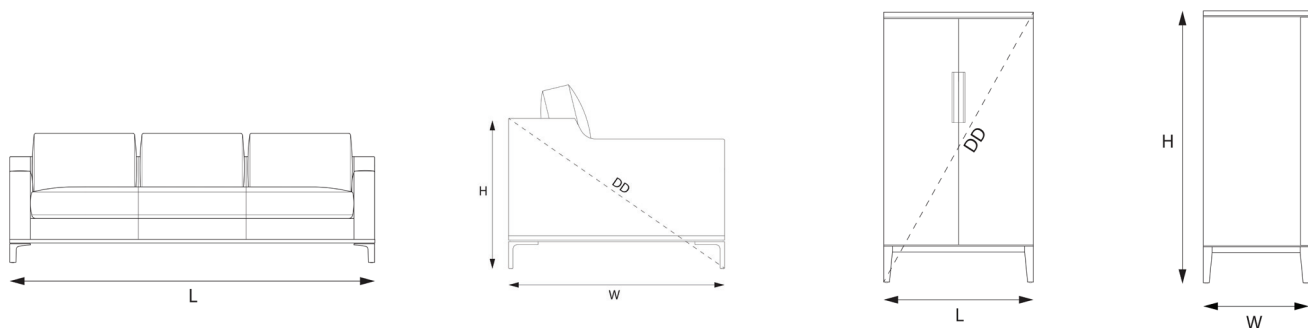

7 Interior doorway height

8 Stairwell overhang/ceiling height

IMPORTANT: For apartment buildings or homes with elevators (and freight elevators), it is critically important to measure the elevator interior, height, opening, and opposite wall distance.

MEASURING FOR DELIVERY

Measure the diagonal depth and width of the furniture as seen below to determine if it will fit through your home's entryways.

PREPARING FOR DELIVERY

Before purchasing your new furniture, note all important measurements and obstructions to ensure a successful delivery.

- 1 Before the delivery team arrives, prepare your home by doing the following:
 - Secure low-hanging light fixtures
 - Put pets in another room
 - Remove doors (if necessary)
 - Remove pictures or art
 - Move existing furniture
- 2 Please be aware that the delivery team is unable to make the following preparations for you:
 - Hoist Furniture
 - Remove windows or doors
 - Install artwork or mirrors.
- 3 During delivery, please inspect your furniture thoroughly and report any damage to the delivery team so issues can be resolved promptly. Clearly note any concerns on the delivery documents before signing.

MY MEASUREMENTS (Feel free to take these to your home furnishings consultant for assistance or for personal reference.)

ex. front door	78" h	36" w
