

# HOLLY HUNT ART

## ABOUT

Barbara Hirsch is a contemporary artist living in Colorado. Her lifetime body of work ranges from acrylic abstract impressionism to large scale contemporary encaustics. Her technique resonates with a diverse global audience.

Barbara has been showing with HOLLY HUNT since 2015 and has been fortunate to build a lifelong relationship with the HH team and their clientele. Raised in Alabama, artist Barbara Hirsch, graduated from The Ohio State University and moved to Aspen, CO later in life. She is a lover of the outdoors.

*"My evolving body of work since the 1960's has been diverse both in technique and tone. Currently, I enjoy using textural encaustics infused with oils to create depth and repeating motifs that are inspired by nature. Encaustics have allowed me to manipulate the natural world by using diverse materials including wax, rice paper and found objects. I'm inspired by the natural beauty and seasonal patterns in my Aspen home that effortlessly create a compelling narrative of color, imagery and composition that is reflected in my work."*

### Recent Timeline of Featured Shows
