## THE CONRAD DIFFERENCE

CONRAD is the original—few companies today approach the legendary reputation that CONRAD has earned for craftsmanship, design and customer care. Fewer still stand behind their product as we have done since 1956. There is no comparison with a CONRAD original. The meticulous detailing and hours of handwork in the art can only be seen in the extraordinary beauty of the finished product. A small, inscribed plaque on each of our custom window creations identifies it as a CONRAD original.

## UNIQUE DESIGNS OF THE FINEST NATURAL FIBERS

From the beginning, CONRAD has created window shades using only the finest natural fibers, those with the most magnificent color, texture, quality and sheen. The quality is visible to the eye. Today CONRAD offers a full line of custom window treatments of natural fibers, including Roman shades, roll-up shades and a contemporary sliding panel shade system.

## THE ARTISTRY OF A HANDWOVEN PRODUCT

CONRAD handwoven shades are individually woven to designer specifications. Each is unique, reflecting the distinctive characteristics of its natural fibers and the mastery of the artist who created it. They are custom-woven to size, rather than cut to size from machine-loomed fabric rolls, so there are no cut edges. The premium natural fibers, original designs, woven shade edges, quality finishing and the extraordinary detailing are all hallmarks of CONRAD.

## BEAUTIFUL, LIGHT-FILTERING TRANSLUCENCY

CONRAD window treatments are naturally translucent, filtering sunlight while softly preserving outside views. For additional sun control or privacy, CONRAD offers optional fabric lining, double density weaves and roller shades.

## ENVIRONMENTALLY RESPONSIBLE

CONRAD is committed to offering responsible and environmentally conscious products of the highest quality. Our commitment goes back more than 60 years when Edie Conrad created the first “Original Sunshades” of beautiful, renewable fibers. Today, CONRAD offers over one hundred unique designs of sustainable natural fibers.

## CUSTOM SOLUTIONS

CONRAD window coverings may be used virtually anywhere, including arched, angled, bowed and specialty windows. Our custom workroom capabilities and full array of options enable us to offer assistance with any window covering challenge you may encounter.

## CONRAD ORIGINAL SUNSHADES®

Nature provides the fibers found in CONRAD Original Sunshades®, and each season's harvest of fibers is unique in texture, color and natural striation. These variations, along with the hand-tied knots joining fiber strands, add to the beauty and character of these one-of-a-kind, handcrafted shades. As CONRAD shades age, green hues of young natural fibers will soften to golden tones. The weave descriptions reveal the beautiful range of Nature's colors that you will find in CONRAD Original Sunshades.®

All CONRAD products are individually handwoven to size, rather than cut to size from large rolls. As they are handwoven rather than machine-produced, finished sizes may vary slightly. Shades can be woven to most widths and lengths, with all weaves available up to 155"W without seams. For extra-wide windows, many weaves can be seamed to widths of up to 192"W. Please see individual weave descriptions for details on maximum widths.

*We recommend that if multiple shades are ordered, that they be ordered at the same time, as matches between harvests cannot be guaranteed.*

### STANDARD FEATURES UNLESS OTHERWISE SPECIFIED:

- Wrapped headerboard (1"H x 1"D) and bottom hem
- Shade waterfalls from the front of headerboard
- Right side operation cord behind shade
- For inside mount shades - 1/2" width deduction recommended (1/4" each side) for operating clearance
- Side returns
- Antique brass cord cleats
- Small inscribed plaque on bottom hem identifies shade as "CONRAD the ORIGINAL™"

## WEAVES | DESIGNERLINE

OUR POPULAR HANDWOVEN CONTINUOUS WOOD-PULP FIBER  
SHADES PRESENT A CLEAN, TAILORED LOOK IN THREE WEAVING STYLES

TULE, WEAVE NO. **CW-MO2**

Award-winning DesignerLine Window Shades® are handwoven of continuous wood-pulp fiber strands, resulting in a clean, tailored look and are available in three weaving styles: DesignerLine®, The Holland Collection® and Continuous-Warp.

DesignerLine® weaves feature 3/4" warp sections spaced 2-3/4" apart. The Holland Collection® weaves feature 1/4" wide vertical warp sections placed approximately 6" apart, accentuating texture and imparting a rich and luxurious drape. Continuous-Warp weaves have a fine textile-like construction.

*We recommend that if multiple shades are ordered, that they be ordered at the same time, as dye lots will vary and cannot be guaranteed.*

CONRAD

WANDERLUST  
EMBRACE INSPIRATION

A collection of handcrafted weaves inspired by the warming air, the gathering light and a return to journeys beyond those we've made in daydreams or the pages of a book. The world calls to us now; its great cities and ancient ports, its boulevards and bazaars, and most of all, those places where nature in all her beauty awakens a heightened sense of wonder and a deeper sense of peace – and perhaps the desire to create a more inspired expression of home.

CONRAD

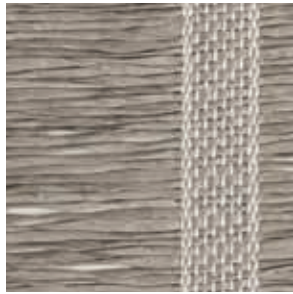

UNEARTHED

HONORING EARTH'S RARE AND TIMELESS BEAUTY

# UNEARTHED

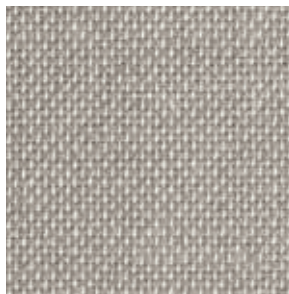

CONRAD introduces Unearthed, a capsule collection that celebrates the very origins of fiber arts and woven materials. Unearthed offers tactile and chromatic choices that are organic and natural, yet artful, urbane, and modern. The edited palette includes a deep mineral grey, a soft, dusted rose encountered in earth's layers, and the sun warmed clay of mesas and canyons, each color rendered in three constructions that allow you to play with texture and pattern. Unmistakably CONRAD, our handwoven shades coordinate beautifully to create interiors defined by simplicity and a relaxed approach to living.

MOOD LUXE

DESIGNED TO SEDUCE THE SENSES

## MOOD LUXE

CONRAD embraces a modern concept of luxury, one in which quality presides. Luxury speaks to the deep pleasure to be found in fine materials, superior craftsmanship, and objects that make the simple rituals of living more beautiful. MOOD LUXE is a state of mind, reflected in surroundings that speak to the senses; objects that call to our longing for beauty.
