CLEANING & CARE

- Dry clean only.
- For optimal textile performance, maintain fabrics by gently vacuuming dirt before it becomes embedded, wipe or blot spills as soon as they occur, and spot clean soon after stains occur. When spot cleaning, always test a small, inconspicuous part of the furniture in case of discoloration or shrinkage. Avoid excessive brushing that may abrade the fibers.
- As necessary, steaming may be done from back of fabric in downward strokes. Always test a small corner of the fabric first. Keep a few inches of distance between the steamer and the fabric, and do not steam in one place of a fabric for too long.
