

# HOLLY HUNT LEATHER

## SKU AND NAME

7000 / PERSUEDED

## DESCRIPTION

Both dusty and vibrant colors inspired by fashion enliven this favorite suede. The soft finish makes this refined suede one of our smoothest in the collection. The calfskin hides allow for a larger cutting yield than split suede hides such as Ambassador.

## **CLEANING & CARE**

- The surface of this leather is treated with a Scotch Gard finish and will resist most debris. However, the natural suede surface will always absorb liquid spills and should be removed quickly.
- Remove regular dust with a slightly damp cloth. Air dry.
- When spot cleaning, always test a small, inconspicuous part of the furniture in case of discoloration.

## **ALCOHOL, SODA, & COFFEE**

- Swab with a tissue and if the stain remains wash carefully with water and gentle soap.

## **PEN, CHOCOLATE, OIL, PAINT, & COSMETICS**

- Wash carefully with water and a gentle soap

## **CHEWING GUM**

- Harden the gum by cooling it with ice cubes in a plastic bag.
- Carefully remove the chewing gum from the leather and use a chamois leather for smaller pieces.

After cleaning, rinse with hot water, dry with hot air, swab with a tissue and polish with a brush. Specific leather treatment products can be recommended for tougher stains.
